**Lincoln County  
Six Year Transportation Improvement Program (Six Year TIP)  
Legend for Clarification / Explanation**

This document is strictly for planning purposes and is modified annually after a properly noticed public hearing. It prioritizes projects based on input from the County Engineer, Public Works staff, County Commissioners, the public and of course, the availability of funds. Many of these projects may never proceed to construction as they rely mostly on state and federal dollars that cannot be projected into the future. Nonetheless, in the event that funding does become available in the future, projects are only eligible if included in this document.
